

April Cycle: Core Data Screens 30 and 31

FROM: Office of Data System Management

TO: Core Data, MOSIS Contacts

DATE: April 11, 2011

SUBJECT: April Cycle: Core Data Screens 30 and 31

We've received numerous contacts regarding the Census Of Technology screens in Core Data. Thanks for all your patience! At present we do not have an expected date for those screens to be open, but we have moved the due date from April 15 to May 15 (or your last day of school – whichever comes first.) If you are not the individual who enters the data into these screens in your district, please share this information with those that do the data entry.

We apologize for the inconvenience, but hope the changes made to the screens are well received.
